“ Uncle Earle always welcomed me with kindness and good conversation. I enjoyed whenever I was able to coax a smile or a laugh out of him. As my godfather, he will be sadly missed. Love you, Uncle Earle.

“ We enjoyed many occasions with Earle as he loved to gather people together for a football game or going out to eat or traveling. He spent a great deal of time volunteering his time to help charities and raising awareness to many causes. His sense of humor was subtle and many times it would sink in as you were leaving the room chuckling to yourself saying, "I got it." He will be missed in many ways. ~Glenn & Karen Turner

“ That humor was still there the last time I saw Earle. It was at Scott and Michelle's and we were cutting up all of those different cheeses. He cracked a line that made me smile because he was in rough shape then and still was telling jokes.

“ It is with much fondness that I remember my son-in-law. He was a good husband to my daughter and gave her a very good life. He loved family gatherings and always had so much fun with the family. God called him from all his pain and suffering and he is now at peace. You will be so missed by all of us but all the memories remain with us, too many good memories to list. Love you, Earle, rest in peace.

“ Earle did love family gatherings! He came to visit at my home in West Texas and we all had fun! He also came to my granddaughter's first birthday. I am sorry for his pain and suffering and glad he is Gods arms. I am sorry because he will be missed.
