

Donald James Huebner

September 10, 1948 - June 16, 2022

Dr. Donald (Don or Donnie) James Huebner was born September 10, 1948, in San Marcos, Texas. He passed June 16, 2022, at the age of 73. His first 5 years were spent in nearby Maxwell where his father, Reginald Huebner, was Pastor at Ebenezer Lutheran Church. In January 1955, Don, along with his mother and two brothers, left Ft. Sam Houston and joined their father in Japan for the first of several military assignments, including Ft Wainwright, Alaska; Ft Hancock, New Jersey; and Ft Sam Houston, Texas. Throughout Don's growing up years, he showed an avid interest in the outdoors, including fishing, hunting, and hiking. Being an accomplished Boy Scout, Don earned Eagle Scout and the coveted God & Country Award. He eagerly joined in the numerous family hobbies, such as rock collecting and coins. He was a prolific lifelong reader, and he was often involved in local election activities in Austin. Throughout his life, Don continued to travel the world, mostly in Europe, as well as Central and South America.

When his sister Diane was born, Don showed the classic love of "big brother" and maintained that affection for her. Don and David went to college at the University of Texas together studying geography and education. From 1972-1986, Don and Dan worked together with their own company, Huebner Construction Company, working on many high-profile homes and projects in Austin. In more recent years, his younger brother, Dan, invested much time and love in helping Don when he developed health problems.

Don received his BS, MA, and Ph.D. from the University of Texas at Austin. He taught geography for 20 years at both the University of Texas at Austin and Texas State University. He served in the U.S. Army and retired as a Major after over 20 years of active and reserve duty.

Don loved adventure and the outdoors and instilled that same passion in his four children-Erik, Daniel, Elise, and Jeff-often taking them along on pursuits, such as camping, hiking, hunting, shooting, fishing, paddling, flying, spelunking, rappelling, off-roading, fossil and rock hunting, and traveling Texas and the Southwest. He had a great love for the Texas Gulf Coast and the Trans-Pecos, as well as New Mexico.

Don loved dogs and took them on many travels and outdoor pursuits. He was very involved in retriever field trials and enjoyed hunting waterfowl, especially with his beloved Labradors, Zeus and Jess. He was also a skilled carpenter and mechanically inclined.

His wit, curiosity, humor, friendly conversation, warmth, intellect, scholarship, friendship, and love will be sorely missed by his family and numerous friends.

Don is survived by his wife, Dr. Jan Allen, children Erik, Daniel, and Elise, and grandsons Aldo and Benjamin. He is also survived by brothers David and Daniel, sister Diane, and first wife, Darlene, as well as many nieces, nephews, and cousins. His youngest son, Jefferson, and his parents predeceased him.

Burial is at Ft. Sam Houston National Cemetery, June 30, 2022, at 11am.

“ Don was my professor while I was a doctoral student at UT Austin and served as a member on my dissertation committee. He was an incredible human being who cared a lot about his students. We remained in touch after graduation and I will forever cherish our memories. RIP, Dr. D!

“ Damn, I just learned today on Facebook because his birthday was yesterday (which I missed). Dr. H was an amazing prof and always helpful. He never belittled anyone for any reason (or if he did, we never saw it). I went back to school in my 30's to get my first degree (it was a little tough for me). Dr. H was always helpful and supportive. Rest in peace, good sir.

“ We were so sad to hear of Don's passing. We were neighbors many years ago, and our son and Jeff were best buddies during their early years throughout the 90's. Now they are both gone and we were shocked to hear that Don is gone too. We send our sincere condolences to Jan and Elise and other family members and loved ones of Don. May his memory forever be a blessing.

“ Don and I met in high school in NJ in 1964. We became good friends when we went on a school trip in our senior year to Washington DC. We always looked forward to seeing each other at HS reunions including our most recent in 2018. I miss him already. He was the kindest and smartest man I have ever known. Laurie Carpenter

Laurie Carpentet - June 29, 2022 at 06:44 PM

“ My friend, Don Huebner was an incredible gift of expansive conversation, and friendship, and his sharing of his life experiences, with his energetic determination, was like being able to walk through that journey in his descriptions. I will always cherish that he called me a friend, and my memories of all that his life was, are his great kindness, incredible intellect, compassion, his brilliance, and ability to live fully in the moment. I wish him further adventuring of the grandest measure everywhere his spirit shall endeavor to carry him. Don, you shall live on in all you have been, all you have done, and all the lives you enriched so caringly and compassionately. Thank you so much for the gift of your friendship. I am deeply humbled, and so much a better person to have been given that gift from you. Forever your friend. Journey in light.

To Don's family and friends:
May you all be surrounded in close, compassionate healing, with Don safely in your hearts and memories.

Respectfully,
Patti Thomas

“ I met Donnie through his brother, Dan, who I married in 1981. I always enjoyed his calm demeanor and intelligence. While I was employed at UT Austin & Don was teaching, we would have lunch together occasionally. He will be missed and always hold a special place in my heart.

“ Don and I first met in January 1969 when I was assigned to the Fort Hood Field Office 112th Military Intelligence Group. We became friends quickly with Don and Darlene moving across the hall from Shirley and I. After returning to Atlanta, we exchanged visits between Austin and Atlanta many times. I have many memories of our travel to the North Georgia mountains and The Great Smoky Mountains and to many areas in Texas and Mexico. Our friendship lasted for over 50 years, exchanging visits, many phone conversations on updates about our families and of course politics. I saw Don three years ago and talked to him a few weeks ago. He told me he expected recovery. I was very sad when hearing of his passing. Don was a great guy!

*My condolences to Jan and all the family.

“ Don was a caring and unselfish friend. At the Geography Department at Texas State he was ever upbeat and concerned about his students. Don always had a smile and a story: One could not ask for a better colleague.

Fred Day - June 24, 2022 at 05:19 PM

Paul Hudson - June 24, 2022 at 07:30 AM

“ Dr. Huebner was my biogeography professor and taught me a lot about fieldwork, geography, computer models, and the natural environment. Always had a big smile on him and was enthusiastic to teach and learn. Was always happy to run into him on campus and around town. I will miss him. My condolences to his family.
