“ I have been thinking about Kim these past few days, how we met, our afternoon chats, laughs and good times we shared. As I reflected upon our times together, I came to truly realize the profound impact that she actually had on my life.

As a result of one of our many afternoon chats, Kim had recommended and suggested that I look into a local school. That school was a perfect fit for my children. I eventually ended up enrolling them into that school and they loved it there.

Therefore, everything from the point of our chat to the present day, and even forward, is due to that very information and suggestion which Kim gave to me.

It is often said that you never truly realize the impact of one person in your life. This is one very good example of how a loving and supportive friend not only impacts you, but your family and your life. It is truly as depicted in the beloved movie, “It’s a Wonderful Life”. I am certain that Kim’s loving concern, support, guidance and love has truly impacted so many of us and that this is only one story of many.

I will always remember Kim with love and thanks for the treasured times we shared and her very kind and supportive nature.

May she Rest In Peace and always remain in our hearts and treasured memories.
